

Help us ID Safety Issues and chronic problem areas on helicopters.

FAA will attempt to collect A&P / Maintenance “tribal knowledge” about chronic helicopter problems/issues. Please list a few recurring service issues or address your top Safety Concerns you see for a specific model when they come in for service or annual. This can remain anonymous if you wish. Please return to the address below. (Use additional paper if necessary.)

A/C Make:

A/C Model:

Primary Safety Concern/Recurring Service Issue:

How Serious:

Solution: (If you were administrator for the day)
